OUR STORY

From Mine to Plate

We buy at the source and manage the chain ourselves. That means consistent grades, honest specifications and a supply partner who answers the phone when your container matters.

Sourced at the Mine

Our supply base sits in Mianwali, in Pakistan's Salt Range. Salt is selected by colour and grade at origin, then milled, washed and packed to the specification your market requires.

Handled with Care

Food-grade handling, batch traceability and lab-tested purity checks run through the chain, so the salt that arrives matches the sample you approved.

Close to Your Market

Teams in Sydney, Toronto and New York coordinate orders, documentation and delivery, working in your time zone and your business language.

Sustainable Practice

We favour responsible extraction, fair dealings with mining communities and packaging choices that reduce waste across long supply routes.

QUALITY & ORDERING

A Supply Partner, Not Just a Supplier

Quality You Can Specify

Food-grade handling, batch traceability and lab-tested purity checks. Kosher and Halal compliant supply is available; certification documentation is shared under NDA on request.

Stable Supply

Direct mine access and multi-port logistics keep grades consistent across repeat orders, season after season.

How Ordering Works

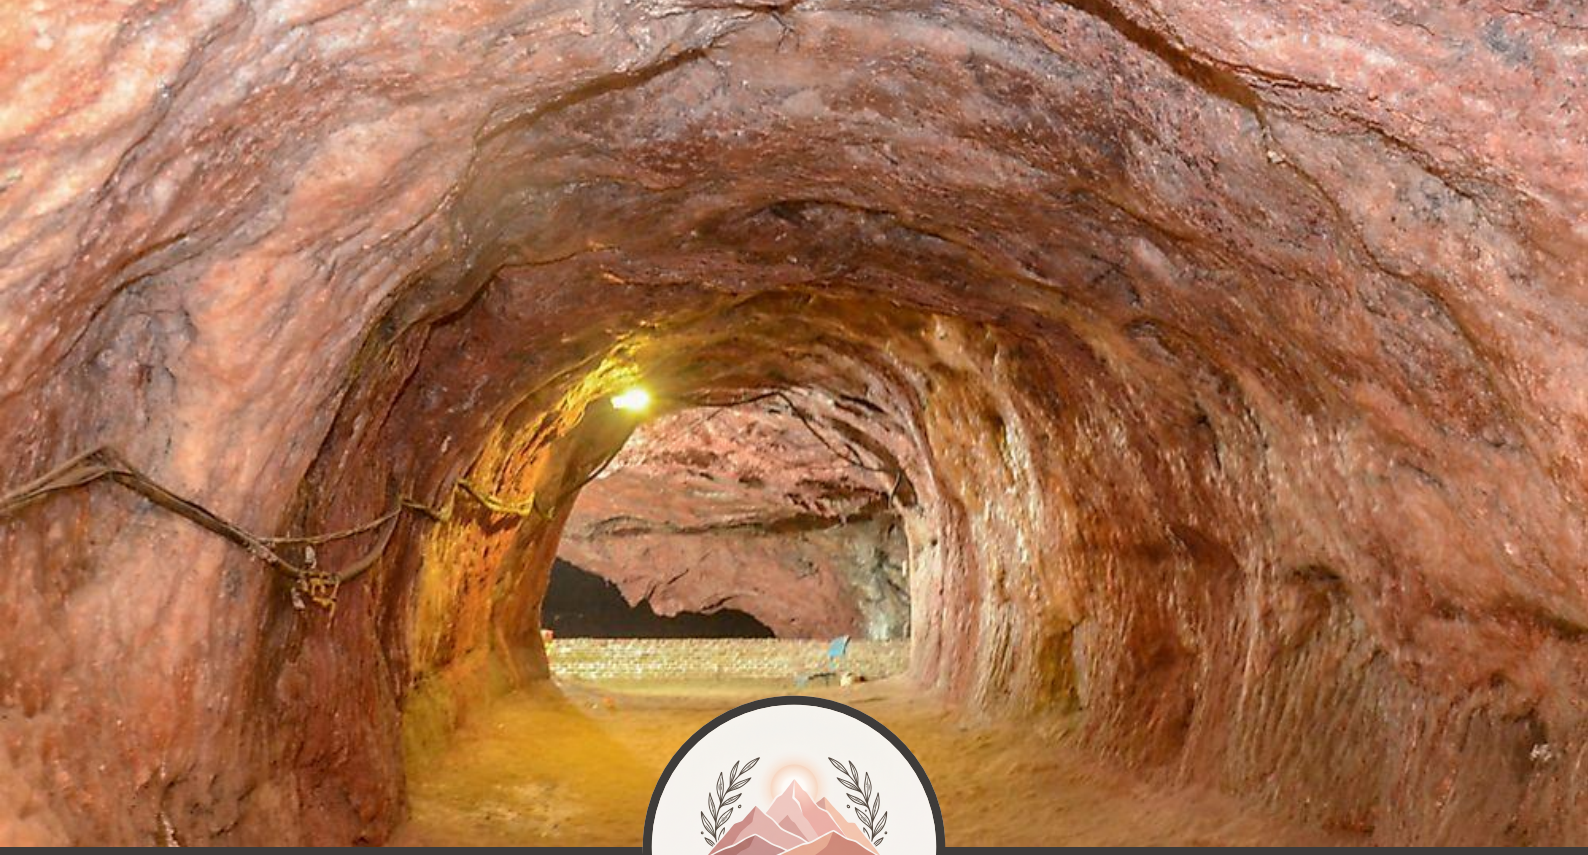

1	**Enquire.** Email sales@thenaturalsalt.com with product, grade, quantity and destination.
2	**Sample.** Product samples are available so you can verify grade and colour before committing.
3	**Quote.** You receive a written quote covering product, packing, lead time and delivery terms.
4	**Deliver.** We coordinate production, documentation and freight to your port or warehouse.

Buyer Questions

Can you private label? Yes. We pack under your brand across jars, pouches, packets and bulk formats.

Do you supply Kosher or Halal compliant salt? Compliant supply is available. Documentation is shared under NDA on request.

What are minimum orders and lead times? Both depend on product and packing, and are confirmed in your written quote.
